

Product Environmental Profile

Polyx video HandsFree Kit - linea 2000 metal Flush mounted installation

BTICINO'S ENVIRONMENTAL COMMITMENTS

Home automation, high range civil installation and canalisation systems are types of products in which BTicino excels on the Italian market. BTicino, as a responsible producer, adopts an environmental policy declined according to three axes:

- **Incorporate environmental management into our industrial sites**

BTicino is concerned with the protection and preservation of the environment from the manufacture of its products.

For this reason, all sites are ISO 14001 certified or committed to implementation of an environmental responsible management policy.

- **Involve the environment in product design**

A product generates environmental impacts throughout its whole life cycle. For this reason, BTicino is committed to minimize the environmental impact of its products and provides its customers all relevant information (composition, consumption, end of life ...).

- **Offer our customers environmentally friendly solutions**

BTicino offers to its customers solutions to reduce the energy and environmental impact of commercial, residential and industrial buildings: solutions that allow to consume less energy in according to the real needs.

REFERENCE PRODUCT

Function	The audio/video color system is a «one-family 2-wire» door entry systems for the residential and small service sectors. Supplied in KIT, it allows to communicate between outside and inside, showing external entry and permitting the lock control. Product category: active product. Service life considered for the study: 10 years.		
Reference Products			
	BT-343001 LINEA 2000 METAL - Pushbutton panel		BT-344192 POLYX VIDEO video handset
			
	BT-346000 Power supply	BT-346250 Door lock relay accessory	BT-346830 Video adapter

The company reserves the right to change specifications and designs without notice. All illustrations, descriptions, dimensions and weights in the document are for guidance and cannot be held binding on the Company.

CONCERNED PRODUCTS

The environmental data for the Reference Product represent the following Catalogue Numbers:

• BT-368811 - BT-368911				
• BT-343001 • BT-342991	• BT-344192	• BT-346000	• BT-346250	• BT-346830

■ CONSTITUENT MATERIALS

This product contains no substances prohibited by the regulations applicable at the time of its introduction to the market. At the date of publication of this document, this product contains no substances to which the RoHS directives apply (2002/95/EC and review 2011/65/EC) and no substances appearing on the list of candidates for authorisation of the European REACH regulation.

Total weight of Reference Products:		3787 g (unit packaging included)			
Plastics as % of weight		Metals as % of weight		Other as % of weight	
Polycarbonate	7,6 %	Ferrite	16,0 %	Glass fiber	1,8 %
ABS	4,6 %	Zamak	9,6 %	Other	1,8 %
Epoxy resin	3,6 %	Copper	6,6 %	Packaging as % of weight	
Polystyrene	3,0 %	Aluminium	4,3 %	Cardboard	28,5 %
Other plastics	3,5 %	Steel	3,3 %	Paper	4,0 %
		Other metals	1,8 %		
Total plastics	22,3 %	Total metals	41,6 %	Total other and packaging	36,1 %

Estimated recycled material content: 32 % by weight

■ MANUFACTURE

This product comes from sites that have received ISO14001 certification.

■ DISTRIBUTION

The Group's products are distributed from logistics centres located to optimize transport efficiency.

The Reference Product is therefore transported over an average distance of 780 km, essentially by road, representing a marketing in Europe.

Packaging is compliant with Directive 2004/12/EC concerning packaging and packaging waste. At the end of product life, the theoretical recycling potential is 100 % and their energy recovery potential is 100 % (as % of packaging weight).

■ INSTALLATION

Installation components not delivered with the product are not taken into account.

■ USE

Servicing and maintenance:

Under normal conditions of use, this type of product requires no servicing or maintenance.

Consumable

No consumables are necessary to use the products.

Product Environmental Profile

Polyx video HandsFree Kit - linea 2000 metal Flush mounted installation

END OF LIFE

• Non-hazardous waste contained in the product: 2552 g

In application of Directive 2002/96/EC, the following elements must be extracted and directed to special waste treatment services:

- Total mass of more than 10 cm² electronic cards: 355 g

• Hazardous waste contained in the product:

This product contains no hazardous waste.

• Theoretical recycling potential:

The theoretical recycling potential of a product is the percentage of material that can be recycled using existing techniques. It takes no account of the existence or lack of recycling services, which are highly dependent on the local situation.

This product contains 95 % by weight of potentially recyclable materials (excluding packaging):

- Plastic materials : 33 %
- Metal materials : 62 %

• Energy recovery potential:

Energy recovery consists in using the calories contained in waste by burning it and recovering the energy produced, for example, to heat buildings or to produce electricity. The process uses the convertible energy contained in the waste.
 32 % of the product mass can be recycled with energy recovery.

ENVIRONMENTAL IMPACTS

The evaluation of environmental impacts examines the stages of the Reference Product life cycle: manufacturing, distribution, installation, use and end of life of the product marketed and used in Europe. The following modelling elements were taken into account:

Manufacture	As required by the «PEP ecopassport» programme all transports for the manufacturing of the Reference Product, including materials and components, has been taken in account.
Distribution	Transport between the last Group distribution centre and an average delivery to the sales area.
Installation	Installation components not delivered with the product are not taken into account.
Use	• Maintenance: under normal conditions of use, this type of product requires no servicing or maintenance. • No consumables are necessary to use the product. • Product category: active product. • Use scenario: ten-year working life. Stand-by mode power: 4,6 W for 99 % of the time; active mode power: 16,3 W for 1 % of the time. This modelling duration does not constitute a minimum durability requirement. • Energy model: Electricity Europe 2005.
End of life	In view of the data available on the date of creation of the document, and in accordance with the requirements of the PCR of the « PEP ecopassport » programme, was counted transport of the Reference Product by road only once, over a distance of 1000 km, to a processing site at end of life.
Software used	EIME V5 and its database «Legrand-2012-10-31 version 3» developed from database «CODDE-2012-07».

The environmental impacts of the Reference Product are representative of the products covered by the PEP, which therefore constitute a homogeneous environmental family. The environmental impacts of the KIT BT-368911 are the same of the Reference Product.

The values of these impacts are valid for the context specified in this document. They must not be used directly to draw up the environmental balance sheet for the installation.

Registration number: LGRP-2013-090-v1-en	Drafting rule: PEP-PCR-ed 2-FR-2011 12 09
